

## Alternative Medicine Seminar

March 9, 2012 (snow date March 30, 2012)

The seminar is presented by Dr. Mark Zink and Kristina Wageman, LVT from Wayne Veterinary Clinic, Wayne, NE. This day is designed to give veterinarians, veterinary technicians and assistants an understanding of what is available in the form of alternative medicine, where alternative medicine is appropriate and where it can be used. Various topics will be introduced in a lecture, demonstration format with techniques appropriate for the dog and cat. This seminar is not designed to teach procedures but to give a basic understanding of the science of alternative medicine.
