

## **Facilities Use Plan for Spaces on NCTA Campus**

This policy outlines the Facilities Use Plan for spaces on the NCTA Campus as defined by BOR policy 6.4.10 and NCTA Policy on Free Expression, Guide for Facilities Use and Education specifically:

- Designated public Forums
- Limited Public Forums
- Non-Public Forums

Spaces such as classrooms, where teaching takes place; or labs where research is conducted; or offices where administrative business is carried out, are not freely open to the public. There are, however, spaces within our campuses that may be opened to both members of the University community and the public for a variety of purposes, including speech and expression. Therefore, under the direction of the Chancellors and NCTA Dean, each of the campuses are to implement facilities use plans, programs and strategies on their respective campuses, along with rules and processes grounded in law and University policies, to designate which properties, facilities, and/or and other university resources, in whole or in part, are categorized under law as:

- “Designated Public Forums”— these are places the campus designates as open for expressive applications to all or part of the campus community, or the community at large. This might be a mall, a plaza or the sidewalks. Reasonable time, place and manner restrictions may be implemented in a viewpoint or content-neutral application.
- “Limited Public Forums”—These are places (such as a concert hall), events (such as a student panel discussion on Literature of the Plains), or other avenues for expression (such as an electronic bulletin board), which can be designated for use by a particular group and limited to particular topics or types of speech, as long as the limitations are reasonable and viewpoint-neutral.
- “Non-Public Forums” are all places and resources not otherwise categorized as Designated Public Forums and Limited Public Forums.
