**NCTA COVID Risk Dial**

*The Dean’s office will send a weekly email to notify the campus the current stage.*

**YELLOW**

The current policies for wearing masks will be implemented in the yellow stage:

- In the cafeteria when going through the food line
- Food Service employees will wear masks while serving food or working around food
- In any lab setting where social distancing cannot be achieved and required by individual faculty members
- In any office where the faculty or staff member may require it
- In any classroom within 16 feet of the instructor when the individual instructor requires it

As a courtesy and out of respect for the other person, if you are speaking to/working with someone wearing a mask, wear a mask

**ORANGE**

*In addition to the previous yellow requirements the following will be implemented:*

- Orange 1 – all students, faculty and staff must wear a mask in any building on campus including classrooms, offices, hallways, auditoriums, and dormitory common areas. This will NOT include dormitory rooms. There will be some minor modifications to this requirement based on the ability to physically distance. Masks will only be required outdoors if 2 or more people are not able to physically distance by at least 6 feet.
- Orange 2 – in addition, this will eliminate all outside groups from coming on campus including FFA events, live tours, and community groups. It will also eliminate any off campus travel including field trips, team competition, and unnecessary activities.
- Orange 3 – all extracurricular activities are suspended including intramurals, dances, social events and campus sponsored activities.

**RED**

*In addition to the yellow and orange requirements the following will be implemented:*

- Red – Campus closes down and remote learning begins.
