SUMMER 2018 AGRONOMY INTERNSHIPS

LOCATION

Alliance, NE; Oshkosh, NE; Torrington, WY

BENEFITS

Paid Internship

OPPORTUNITY

Interns will have the opportunity to interact with and support our team of agronomists and operations specialists. Tasks will include crop scouting, plant tissue sampling, GIS/Precision Ag support, field marking, and other duties as needed.

This is a great opportunity to shadow current professionals within the Ag Industry and to gain invaluable experience with a local cooperative!

To apply email your resume to:
gbirch@westcoonline.com

Summer 2018 Agronomy Internships

- *Timeline: Mid-May through Mid-August*
- *Location: Alliance NE; Oshkosh NE; Torrington WY*
- *Opportunities: crop scouting, soil sampling, plant tissue sampling, pesticide/herbicide application follow-up, grower/agronomist interactions, precision ag/GIS exposure*
- *WinField orientation and training (mid-May)*
- *Paid internship*

We are looking for motivated students with an interest in agronomy/natural resources/etc. who are eager to gain field experience! No specific prior experience or education level necessary – training will be provided. Contact Greta Birch at gbirch@westcoonline.com for more information about our internship program. Visit our website at westco.coop for more information about Western Cooperative Company.
