913-722-5566 (Kansas City Metro Area)

**WE GROW OUR OWN!**

Immediate full time and part-time openings for **Receptionists, Assistants and Veterinary Nurses** in our rapidly expanding Specialty and Emergency Veterinary Hospitals. Mission Veterinary Emergency and Specialty Center is a 24 hour emergency, critical care and specialty hospital serving the Kansas City metro area for over 25 years. Our brand new hospital is opening in March 2021 in the Overland Park/Stilwell area.

**Veterinary Nurses**

We offer year round internships and externships for Veterinary Nursing Students. We consider ourselves a teaching hospital. The majority of our clinicians are board certified specialists. This is a great opportunity to spend some time with us and perhaps make that decision to continue your education in one of the disciplines listed below. We have several nurses currently pursuing Veterinary Nursing Specialty. (VTS) These programs put you at the top of your field financially and academically. Our registered veterinary nurses utilize all their skills including venipuncture, catheter placement, laboratory testing, radiology, anesthesia monitoring, surgical prep and assisting, patient recovery, and compassionate care for all of our patients. As one of our highly skilled veterinary nurses, you will enjoy exposure to a diverse and stimulating caseload with surgeons, criticalists, cardiologists, oncologists and internal medicine specialists.

**Veterinary Assistants and Receptionists**

We offer a unique opportunity of advancement for someone who has little or no training in the Veterinary field. Our entry level employment involves a six month "Red card" tech training with post training evaluation to determine eligibility to become an assistant or receptionist. Further advancement would involve enrollment in a Veterinary Nursing Program. These programs are eligible for tuition reimbursement, scholarships and on the job training while earning a degree from a distance learning veterinary nursing program or local veterinary nursing accredited program.

**Benefits**

We offer a generous benefits package with basic PPO insurance paid by the company, dental and vision insurance is also available along with short term and long term disability, 401 K, life insurance plus a generous pet discount program. We also offer incentives including scholarship reimbursement program, quarterly bonus program, uniform allowance, and flexible scheduling accounts. Sign on bonus available for experienced nurses. Overnight Nurses make \$2.25/hour more than the base rate.

To The Director of the Veterinary Nursing Program,

I hope my correspondence finds you safe and healthy! I have enclosed a flyer with information to pass along to your current students and alumni in search of a unique opportunity in a Veterinary Specialty Hospital. We along with many other specialty hospitals are expanding and growing and are in search of highly motivated and enthusiastic nurses and hospital workers. In return we offer an opportunity to expand their knowledge base and continue their education. Above average pay is a bonus! I would be happy to answer any question you may have about our hospitals. When life returns to normal, I would be interested in coming to your campus to do a talk or presentation on specialty hospitals.

Thank you and take care,

Kelley Pelini, RVT, BS
