

Summer Learning Center Position

Summer Learning Center Position Description: Bayer Crop Science is looking for a highly motivated individual who enjoys working outside in a farm setting with cutting edge research. This position will be located at the Water Utilization Learning Center near Gothenburg, NE. This facility is a working farm that conducts crop production research while providing tours to farmers over the summer on various crop production topics. This position will assist with field work, planning tours and assisting the permanent staff with other field duties as needed. This is a unique opportunity for students who are interested in agronomy and wish to become a sales agronomists, district sales managers, or technical agronomists as they will have the opportunity to learn about crop production products, new corn hybrids and soybean varieties, and irrigation management. If interested, please send your resume to Khris Jinks at khris.jinks@bayer.com.

Date of positions: Start date mid-May through mid-August but potential employee could start sooner.

Requirements and skills: College students interested in Agronomy or Ag Business are preferred but highly motivated high school students with an interest in agronomy are encouraged to apply. Must have good work ethic, be proficient in Microsoft Office applications including Excel, and work well in a team environment.

Application deadline: Position will be left open until the right candidate has been identified but initial screening of candidates will begin on May 1st 2026. To apply, please submit resume or questions you may have to khris.jinks@bayer.com.
